Sen. Kuipers issues statement on timely release of MEAP scores

LANSING — Sen. Wayne Kuipers, R-Holland, offered the following comment on today's on-time release of Michigan Educational Assessment Program test scores:

"I applaud Michigan Department of Education officials for their work to correct the problems that delayed the MEAP test scores for so long last year. Tom Watkins and Ed Roeber deserve credit for fixing last year's mess with a private contractor. Because of their work, local education leaders now will be able to make curriculum changes to ensure Michigan school children are receiving a world-class education."

Kuipers chairs the Senate Education Committee.
